Subject: Re: Table C-5 - RF FYR report

Patty,

This table will be more useful. You might consider re-titling the third column to distinguish it from the second. Something like, "Rescreening of EPA RSLs < PRGs in any EU." The units (mg/kg) in the second column heading are meaningless since it is simply a comparison.

Thanks,
Carl

All:

We've revised the subject table of chemical constituents as requested. Please review the attached files and let me know if you prefer the revised version (Word file) or the previous version (PDF file) and I will include it in the final FYR report. If you could let me know by the end of today, it would be greatly appreciated.

Thanks.

Patty
